Summary

final best files are .....fallout_plate_frame mk5 and vault tec plate frame keyed master

I saw a VERY similar online... but they were sold out, so I copied it... problem is my embossing kinda sucks... so I included a vault tec plate that can be glued or otherwise attached over the recessed vault tec ... I also included the split version cause it was too big for my printer. i'm not a professional 3D modeler by any means, sorry if there are any issues.

I just noticed... I uploaded the frame with the vault tec logo hovering above it... that frame has no material below where the vault tec logo goes.... so just use that file for the logo if you want. AAANNNNDDDD I forgot the greeblies in the corners on the split one....so.... I added the file...ill work on getting the whole thing uploaded on here

.

UPDATE: uploaded a new version... fallout plate frame and the split version soon after. i hope it all prints ok for you.

OK FINAL UPDATE TO THE UPDATED UPDATE(s)!!!! i think i got it!!! the final file is fallout plate framemk3... its about as good as i can get it with what i have.... i'll split it later...so keep an eye out!

final best files are .....fallout_plate_frame mk5 and vault tec plate frame keyed master

TIPS always appreciated.. a buck or 2 would be super cool!

Post-Printing

painted whole thing blue (rustoleum oasis blue) an text yellow (the paint i used sux...(folk art enamel4173E yellow light) found at wal-mart
